SUMMARY

With over 3 years as a Full Stack Developer, I excel in front-end and back-end development, version control, testing, and debugging. I manage projects efficiently, collaborate well with teams, and solve problems effectively. My adaptability, organization, and critical thinking ensure the delivery of high-quality web development solutions.

WORK EXPERIENCE

Norwest Roofing   San Antonio, Texas
Full Stack Web Developer / Project Estimator   Feb 2014 - Present

- Architected and developed websites and applications using HTML, CSS, JavaScript, Node.js, React, and more. Implemented responsive design principles to ensure compatibility across various devices and browsers.
- Conducted extensive testing and debugging using tools like Jest to identify and resolve issues.
- Facilitated collaboration among multidisciplinary teams, including designers and project managers, using Agile methodologies.
- Directed comprehensive web development and maintenance efforts, overseeing server-side and client-side development. Implemented performance monitoring tools such as New Relic.
- Regularly attended industry conferences, workshops, and online courses to stay updated on the latest technological advancements. Introduced new tools and best practices to the team.

DeTech (Startup)   San Antonio Texas
Founder & Full Stack Developer   May 2022 - Present

- Designed and developed comprehensive web applications using HTML, CSS, JavaScript, Node.js, React, etc.
- Created intuitive, user-friendly interfaces and ensured a seamless user experience with responsive design and interactive features.
- Oversaw the entire development lifecycle, managing multiple projects from initial concept through deployment and ongoing maintenance.
- Collaborated closely with clients to understand their requirements, provide expert technical advice, and deliver custom solutions that align with their business objectives.
- Drove the startup's growth and success, achieving a 70% increase in revenue within the first year by managing marketing, sales, and financial planning.
